

Dear students

Greetings

The summer is here and your holidays will begin soon. How about doing something interesting and fascinating during the holidays! Here is a list of things you could do. Do the ones that interest you the most.

1. If you travel with your family, click some pictures and using an App like PUPPET EDU, tell us about what you saw. If you don't travel you may do the same thing at home. 
2. When at home help your mother in the housework, learn to do your own work like tidying up your room and making your bed. Learn to make sandwiches and milkshakes etc.
3. Watch movies of the following genres: Comedies, Fairy tales, Historical films, Science Fiction movies, Documentaries about lives of famous persons, famous speeches etc.
4. If you have a computer at home or you can mirror a phone on TV, watch YOUTUBE Kids videos and make some science models to explain the concepts that you have learnt in school.
5. Learn to play indoor games like Chess, Monopoly, Scrabble and others.
6. Play outdoor games in the early morning and evening.
7. Revise your tables, important formulas and spellings.
8. Work on improving your handwriting if you think you need to.
9. Work on your speaking skills by speaking to others and also practice reading aloud.
10. Paint, Sketch, Sing, learn to play a musical instrument, read story books or pursue any other hobby that you have.
11. Make a scrap book and record all that you do in the book and share with your teachers and friends when you come back to school. You may even make a PPT or a collage if you like. You may simply prepare a talk and describe all that you did. You may think of other innovative ways to present your work also. The choice is yours. You choose how you want to present 'How I spent my Holidays'.

Warm Regards
Mrs. Pratibha Dabas
Academic Director
Golaya Progressive Public School
